

Empowering logistics for the connected future

Your cloud-based global logistics control tower

At the heart of Trade Tech's commitment to revolutionizing the logistics industry lies Syrinx - our comprehensive suite of five integrated modules meticulously crafted to simplify complexities of global trade.

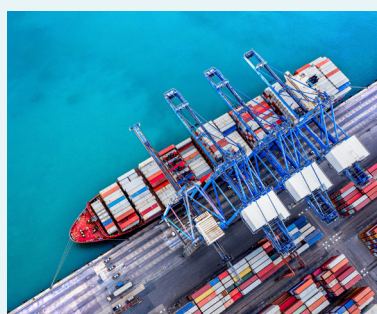

Imagine logistics flowing effortlessly as Syrinx's online platform harmoniously links every aspect of cargo movement. With a central server at its core and seamless integration with AWS cloud solutions, Syrinx operates as a global control tower, setting new standards in logistics efficiency. Streamline your operations, improve transparency, and collaborate with logistics players across the globe.

Effortless shipping, connected collaboration and streamlined supply chains

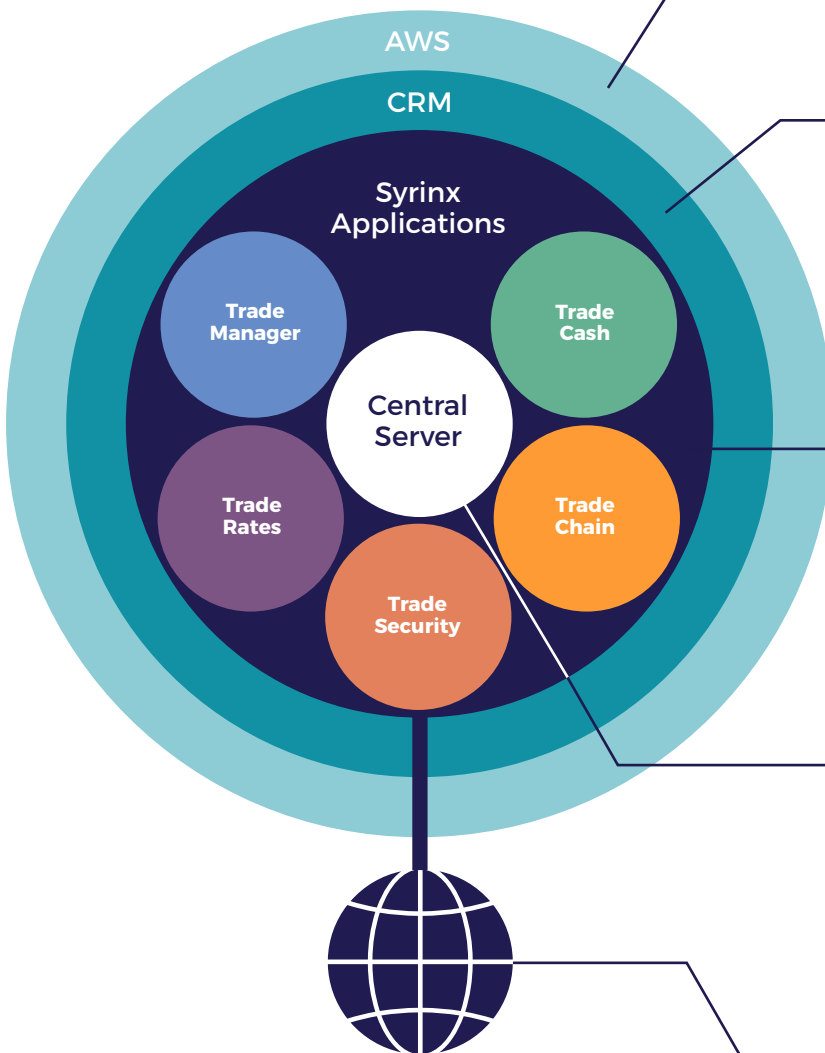

Syrinx's essence lies in its interconnectedness.

It seamlessly integrates five distinct modules, creating a unified environment where logistics activities flow cohesively. Envision customs agencies, carriers, and trading partners collaborating in real-time, effortlessly sharing data and insights on a global scale. This instant connectivity eliminates communication bottlenecks, expedites processes, and enhances decision-making, thereby fostering an ecosystem of unparalleled efficiency.

Through Syrinx, the logistics industry is empowered to achieve a new standard of excellence, where seamless collaboration propels success in the global marketplace.

Effortless shipping, connected collaboration and streamlined supply chains

Amazon Web Services (AWS)

Syrinx is fortified with top-tier cloud solutions and security protocols.

- Unlimited capacity in the cloud
- Backup facilities
- Security/firewalls installed

A robust CRM system

Embedded CRM to enhance interactions and relationships.

- Nurture meaningful connections
- Manage vital information
- A customer-centric approach

Syrinx modules

Event driven applications that are seamlessly integrated.

- Syrinx programming
- Virtual servers (Kybernetes)
- Automated monitoring

A central server at its core

Our core empowers each Syrinx module to perform harmoniously.

- One global control tower that unites logistics for efficiency
- Synchronized module functioning
- Streamline processes

Syrinx is connected to customs and users across the globe

Instant collaboration between customs, carriers and partners.

- Collaborative power
- Realtime insights
- Event-based alerts

At the heart of Syrinx is its profound integration. This platform seamlessly integrates five specialized modules, ensuring logistics operations synchronize smoothly. Picture customs agencies, carriers, and trading partners engaging in real-time, sharing data effortlessly on a global scale. This connectivity cuts through communication delays, accelerates processes, and sharpens decision-making, cultivating an ecosystem marked by exceptional efficiency.

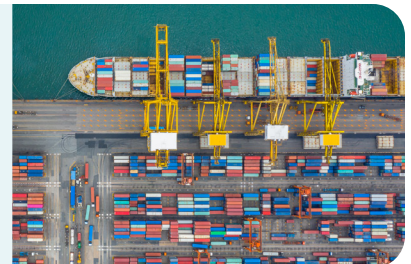

Discover Syrinx' individual modules

Unlock the full potential of your logistics business with our suite of Syrinx solutions. Each Syrinx module complements the others, creating a seamless ecosystem that optimizes your entire supply chain.

Syrinx Trade Manager

Seamlessly manage your end-to-end shipment operations

This provides you with the tools to command your end-to-end shipment operations, ensuring a seamlessly orchestrated supply chain from origin to destination.

Syrinx Trade Rates

Real-time market knowledge and lightning-fast quoting

Navigate logistics rates effortlessly with our advanced solution, where accuracy and speed converge to elevate your quoting process.

Key solution highlights

Trade Tech's unique advantage lies in being developed by the logistics industry itself. Rooted in the expertise of logisticians who sought to revolutionize their own field, we understand the pulse of our clients' needs like no other. By blending industry insights with technological finesse, we have forged a platform that truly stands apart from the crowd.

Real-time market knowledge

Syrinx equips you with real-time market knowledge, empowering you to stay informed and make strategic decisions.

Efficient operations

Syrinx optimizes your operations, setting up shipments exactly as they were quoted, and streamlining every step of the process.

Hassle-free customs process

Syrinx simplifies cargo filing, ensuring smooth security measures and a streamlined customs process.

Precision and consistency

Syrinx ensures that each aspect of your logistics process adheres to predefined standards, resulting in a consistently high level of service.

Seamless collaboration & connectivity

Our Syrinx suite acts as one global control tower, uniting customs, carriers, and trading partners across the globe in real-time.

Effortless accounting

Syrinx streamlines your accounting processes, reducing manual efforts and ensuring financial accuracy.

Visibility and inventory management

With Syrinx, track orders and gain complete visibility of inventory in transit, enabling you to make informed decisions.

Automated tracking & proactive alerts

Our automated tracking system monitors every shipment, and our event-based approach proactively identifies exceptions before they become problems.
